Certification of individuals

Can a person be ISO certified? Yes, an individual can get ISO 27001-certified by attending one or more of the following trainings:

- **ISO 27001 Lead Implementer Course** – this training is intended for advanced practitioners and consultants.
- **ISO 27001 Lead Auditor Course** – this training is intended for auditors in certification bodies and for consultants.
- **ISO 27001 Internal Auditor Course** – this training is intended for people who will perform internal audits in their company.
- **ISO 27001 Foundations Course** – this training is intended for people who want to learn the basics of the standard, and the main steps in the implementation. How do I become ISO certified? To become ISO 27001 certified, you must attend a course and pass its final exam. The ISO 27001 certification exam covers both theoretical questions and situational questions, where the candidate must demonstrate how to apply the concepts learned.
