

PAID READINESS ENGAGEMENT

AI Governance Readiness Assessment

Know exactly where you stand — in two weeks, for a fixed fee.

Your free assessment gave you a directional score. This gives you the auditor's-eye version: a control-by-control review of your actual AI governance against ISO 42001, the EU AI Act, NIST AI RMF, or US state law — and a prioritized, costed plan to close the gaps.

WHAT YOU GET

- A complete inventory of where AI operates across your product
- A remediation roadmap, sequenced by risk and effort, with cost estimates
- A gap register mapped to every relevant control, with maturity ratings
- A 60-minute readout to walk through it, personally

FIXED FEE / TWO WEEKS /

CREDITED IN FULL TOWARD IMPLEMENTATION IF YOU PROCEED WITHIN 90 DAYS

Led personally by **Hugh Deura** — CISSP, CISM, ISO 42001 Lead Implementer — who took a financial data room platform through its ISO 42001 Stage 2 certification audit. *Financial data rooms are the hard mode of compliance; if it holds up there, it holds up for you.*
